1576 W. 12th Street, P.O. Box 19000, Florence, OR 97439

Press Release

Siuslaw Outreach Services has been awarded a \$12,000 grant from The Collins Foundation. The grant is for replacement of old computers and the purchase of a color copier/printer. The existing computers are too slow to handle the online reporting requirements from a major funding source. The copier/printer will be used for new brochures, newsletters, donor programs, and fundraising events materials.

Executive Director David Wiegand stated: "This grant will enable us to update our operations, save a lot of time, and increase our efficiency. We have a lot of online reporting requirements for funders, and we are also planning to send out a great deal of published information in the future. We really appreciate the support from The Collins Foundation."
