

Press Release: Coquille Tribal Community Fund Grant

Siuslaw Outreach Services has received a grant for \$5,000. from the Coquille Tribal Community Fund. The grant will be used for its "At Risk" and emergency voucher funds. These funds are used for individuals and families who are at risk of homelessness or having utilities turned off, or are in an emergency situation.

The check was presented February 22nd at the Mill Casino in Coos Bay by Sheldon Chase, Chair of the Board of Trustees. The Coquille Tribal Community Fund brochure states "Over the centuries, the Coquille people were sustained by carefully harvesting the bounty that exists on the Oregon Coast. From that bounty, our ancestors were able to care for their needs and share with their neighbors. Today, the Coquille Indian Tribe carries on this tradition through the Coquille Tribal Community Fund. We are pleased once again to share our modern bounty with those who provide much-needed services to our neighbors."

Siuslaw Outreach Services greatly appreciates this support.
